## Software Function

- ◆. This machine operates in a semi-outdoor environment. When in use, it should be placed away from heat sources, away from direct sunlight, and in a well-ventilated, dry location.
- ◆. Avoid getting the screen surface dirty. If the screen surface is dirty, use a cloth dampened with a small amount of glass cleaner to wipe it clean. After cleaning, allow the surface to dry before using the touch control functions.
- ◆. Do not disassemble the machine yourself, and never open the back cover while the machine is powered on, to prevent damage to internal components or electric shock.
- ◆. This product is a Class I device and should be connected to a three-phase power outlet during use.
